

Certification Course on

Safety Management

FOREWARD

BUET-JIDPUS is an institute of BUET, founded on 2010 with initial financial support from the Japanese government. It was established to fulfill the urgent need for technology based active research and education support in the field of disaster reduction in Bangladesh.

Since September, 2018, BUET-JIDPUS initiated the certification course on “Safety Management”. The courses have been designed by multidisciplinary faculty members of BUET. With the help of the resource persons, the practical scenarios of industries in Bangladesh will come up in the learning process and it will make our professionals capable enough to address the situations more promptly. Objectives of the course are to create understanding of general principles of safety and risk, understanding of social context of safety and risk and develop an ability to apply basic methods and implement a safety management system.
